Endress+Hauser
People for Process Automation

Extensive measuring device range for better plant safety

With over 250 certified product lines, Endress+Hauser offers the most extensive range of measuring devices for use in hazardous areas and safety and protective equipment, as well as tools for the safe selection and design of measuring devices, and the professional advice and service of experts.

In addition to stringent requirements for quality and efficiency, plant safety is one of the most prioritized company objectives for plant operation in the chemical industry. Plant safety reduces risk to people, the environment and property to a minimum. Safety requirements are constantly becoming more demanding; this is partly due to increasing complexity and automation in process plants, but is also caused by new regulations that are the result of changes to standards, laws and guidelines.

A dependable partner, such as Endress+Hauser, with considerable experience and the right safety-related solutions guarantees maximum safety and optimum plant efficiency. As a leading provider of plant safety and process safety technology with over 65 years' experience to its name, Endress+Hauser helps its customers meet the most stringent safety standards. Proven expertise and skill will guide them through the entire safety life cycle in the fields of explosion protection, functional safety and overfill prevention in line with the German Federal Water Act (WHG) and the Pressure Equipment Directive (PED).

The Endress+Hauser Group

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs more than 13,000 personnel across the globe, generating net sales of over 2.2 billion euros in 2017.

Structure
With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 12 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

Products
Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

Industries
We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

History
Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
