

## 2018 Global Water Award Nomination

Endress+Hauser shortlisted for prestigious industry award

**Endress+Hauser has been nominated for the 2018 Global Water Award in the category “Smart Water Company of the Year”. The award recognizes companies that are moving the water and waste water industry forward through innovative products and solutions. The winners, which are determined via reader voting, will be announced on 16 April 2018 at the Global Water Summit in Paris.**

The “Smart Water Company of the Year” category is devoted to companies that are making a major contribution to digitalization in the water industry. Endress+Hauser was nominated for, among other things, its Memosens and Liquiline technologies, which digitalize the measurement values in the sensor and transfer them inductively, without a contacting connection, to the transmitter. In addition, important joint efforts such as participation in the German-Sino research project “Semizentral” underscore the significance of Endress+Hauser’s analytics strategy. Semizentral is an innovative approach to improving the water system infrastructures in mega cities.

More than 1,000 patents in the area of liquid analysis furthermore illustrate Endress+Hauser’s strong focus on innovation. “Our innovations are designed to improve our customers’ processes and products. We’re thus extremely pleased to be one of the four nominees among the many companies that were under consideration,” says Dr. Manfred Jagiella, CEO of Endress+Hauser Conducta and member of the Executive Board at the Endress+Hauser Group.

### **Global Water Award**

The Global Water Award was established in 2006 by the international trade publication Global Water Intelligence and recognizes companies that are making an impact on the international water industry through advances in technology. The awards are presented during the Global Water Summit, an international conference attended by more than 650 participants each year.

## **The Endress+Hauser Group**

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs more than 13,000 personnel across the globe, generating net sales of over 2.2 billion euros in 2017.

### **Structure**

With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 12 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

### **Products**

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

### **Industries**

We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

### **History**

Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
